This is the time to either decide how you want to start your legal career or re-examine your goals after having practiced for a while. Our unstable economy is a perfect reason to reflect on either where to start or to think about what you've accomplished and consider what it is you want — and need — to do next.

- Getting off to a great start
- Make a satisfying career even more successful
- Improve your new business development
- Explore the idea of a more fulfilling practice
- Create new opportunities that use more of your talents
- Work part-time so you can volunteer or have more family time
- Retire soon, but stay active and do meaningful work

This seminar will show you how to make your practice flexible and nimble, so you can take advantage of new opportunities. And you'll learn how to work towards transforming possibilities into tangible action.
